

Which Munchee is right for me?

MUNCHEE
SMALL DEVICE **BIG** IMPACT

Mini

18 months to
4 years

Myo Small

with or without handle

4 to 8 years

Small to Medium build

Myo Medium

8 years to
adult

Youth up to adult
female

Myo Large

14 years to
adult

Large teen males,
adult males and
females with broad
skeletal structure

Age and/or body type is your best guide to sizing a Munchee, however there are many variables including low tone, underdeveloped or oral sensory issues that mean it may be best to start with the smaller size and progress to the next size as the child becomes more comfortable.

If in doubt it is always best to start smaller, have the child enjoy the experience and work your way up to the next size.
